- ✓ **Use on fabrics, floors, clothing & more**
- ✓ **Biodegradable**
- ✓ **Made from plant oils**

Fresh Air

Fresh Air is made from natural plant oils and biodegradable materials to give you a safe and pleasant experience at work or at home. Use anywhere that odors can be a problem—cars, kitchens, bathrooms, industrial environments. Quickly freshen the air with just a few sprays for lasting odor remediation. Spray directly on surfaces to attack malodors at their source. Fresh Air is made from many different herbs and plant oils and is available in several different scents.

Directions: For general use, use a trigger sprayer or pump-up sprayer to apply the finest mist possible to the affected area. Be sure to spray directly trouble spots such as carpets, drapery, and fabric upholstery. The treated fabrics should be slightly damp but not soaking wet. Fresh Air will dry to a soft, smooth finish free of malodors.

Keep this and all similar materials out of the reach of children.
