# Extractor

Extractor is a moderately foaming solution designed to loosen and lift soils found in carpets, upholstery and auto interiors. Extractor Shampoo is a heavy-duty concentrate that leaves carpets and upholstery bright, clean and without a sticky or soapy film.

Extractor is a very cost effective alternative for car wash and detail shops that demand results. Only 2 to 4 oz. diluted with water will produce dramatic results.

Directions: Simply dilute 2 to 4 oz. of solution per gallon of water in extractor machine. Use machine according to manufacture's directions.

Keep this and all similar materials out of the reach of children.
