

Windshield Solvent

- ✓ Stops freezing in washer lines
- ✓ Protects down to Minus 49° F
- ✓ Cleans Windshields to a Sparkling Shine
- ✓ Easy to Use
- ✓ Will Not Streak Glass
- ✓ Concentrated—Dilute with up to 20 parts of water

Windshield Solvent

Windshield solvent is formulated to be used as an automotive and truck windshield washing cleaner. This concentrate is to be diluted with water prior to use. Special ingredients remove road film, salt residue, and insects. Windshields sparkle, and will not streak when wipers are used. Windshield Solvent may also be used to polish chrome on automobiles. This product may be diluted 1 part concentrate to 10 parts water in winter months to resist freezing. See use dilution chart for dilution ratio to be used in automobile reservoir according to temperature protection desired.

Use Directions: Simply dilute according to the chart below. Be sure to use a clean container for dilution. Pour the diluted material into the windshield washer reservoir. For summer use, Windshield Solvent may be mixed with 20 parts of water and more to clean windshields and remove film.

1 part water.....	-49° F
2 parts water.....	-13° F
3 parts water.....	-0° F
4 parts water.....	+10° F
5 parts water.....	+14° F
10 parts water.....	+26° F

Danger: POISON - Contains Methyl Alcohol (Methanol). May be fatal or cause blindness if swallowed. Vapor harmful. Keep out of reach of children. Cannot be made non poisonous. Avoid contact with eyes. Use only in a well ventilated area. Keep away from heat and open flame. Do not store in open or unlabeled containers.

Danger: Concentrate is flammable.

Keep this and all similar materials out of the reach of children.
